

Tuesday.

My Dear wee Mother

There was not any letter for you
to day. I hope that you are all well.
This has been a fairly busy day. I walked
all morning and in the afternoon I went
down to Walsley station and saw
the unloading of the gun for the
artillery. big ugly howitzers and
15 pounders. The Superannuaries went
away tonight. I was sorry to see
them go. Graham went with them
to see them at present. It will
not be long however before I join
them. The battalion is due to move
on the 10th but I don't think it will
go then. It may be some weeks before
we go.

I have no news of importances.

There was a concert in the reports
man which I attended for a short
time. The L.O. made a very good speech.

I hope that you are all well
& that you are not worrying any
body. I am sorry to write such
bad letters but we are busy &
there is no news.

Very much love

your aff. son
Albert

My Dear Mrs Mother

Many thanks to Mamma for her letter of to-day. I am glad that the children are so nice. Hope that they will keep well. I never write to them alone & looking for the last present they sent me. I turn my kind of them.

I have no news of any import. This has been another slack day. I am orderly officer and so have to stay up late but otherwise I haven't been doing much. I go tomorrow to see the C.O. of the 78th Ambulance who may see me something to do. In the afternoon I hope to go out with a man & see on his motor bicycle unless they turn up.

The battalion is in an uncomfortable state of expectancy just now

at any 10 anytime. I would be glad to put them
forward when they come. The article in
Washington is not pleasing

I don't think that shows any more
news.

Very much love to all the folks &
Aunt. I hope that you all will

Yours very affectionately

Abner
